About the institution and the department

Sri Sivasubramaniya Nadar College of Engineering, an autonomous institution, is the outcome of the vision and initiative of Padma Bhushan Dr. Shiv Nadar. The institution seeks to achieve excellence as an academic institution and advanced research centre.

The department of Information Technology (IT), reflecting the ideals of its founder, imparts IT excellence to the students through various academic and research activities. The Institution is certified by NAAC (A+ - Grade), NBA, and ISO 9001:2000. The department is a recognized research centre of Anna University, Chennai. It has many ongoing projects funded by DST, DIT, DRDO, AICTE, and SSN trust and has organized many faculty development programs and short term training programs sponsored by Anna University, AICTE, and ISTE. The department of IT is also a recognized resource centre under National Cyber Defence Research Centre (NCDRC).

About Cyber Security Working Group (CSWG)

The Cyber Security Working Group (CSWG) is an active forum in the Department of IT comprising faculty members and students who have been conducting a series of activities like seminars, workshops and conclaves in association with various academic and industry partners for the past three years. The group was able to successfully create awareness and impart knowledge to the students and faculty fraternity through lectures and practical sessions.

Scope of the seminar

Following the computerization and informatization, presently we are in the emerging era of cyberization where the presence of cyber space could be realized in every aspect of our life like healthcare, banking, transportation and various other sectors. The rapid growth of this era is seen through the emerging computing and information communication technologies like cognitive cyber- physical systems and social computing and networking. This seamless integration of social and physical spaces has a number of pressing challenges associated to safety and trust in securing personal data. The objective of National Seminar on Cyber Security is to provide a common platform for students, faculty members and researchers to discuss, share and identify ongoing and emerging challenges in the broad scope of cyber-related science, technology, and application topics.
